

# Supertanium® , Pro-Bit® Spot Weld Removers

## Cut Out Spot Welds Without Damaging Inner Body Panels

### Remove Spot Welds From A Range Of Steel Strengths

When faster turnaround and cutting control are needed, add Supertanium®, Pro-Bit® Spot Weld Removers to your collision repair process. They are uniquely designed and engineered to completely remove and separate spot weld joints in a single step.

The self-starting point eliminates pre-drilling and the spot weld nugget is removed completely so no secondary grinding is needed. Whether your job is removing spot welds in high strength steel or boron steel, Supertanium®, Pro-Bit® Spot Weld Removers are a proven solution to shorten your cycle time.
