

CONSOLE TRADE-IN INSTRUCTIONS

Thank you for upgrading to the new 994 Laser Console via our trade-in program.
Please follow these instructions carefully to ensure each step has been completed.

WHAT YOU RECEIVE WITH THE NEW CONSOLE

New console, new serial cable and new safety shield
(plus any applicable jaws ordered – i.e. G or H)

UPS pre-paid shipping label

WHAT YOU NEED TO SEND BACK

- 1) Original console
- 2) Serial cable
- 3) Original safety shield currently installed on the machine (see following page for safety shield removal instructions)
- 4) Completed Product Registration Form for new console

INSTRUCTIONS:

Remove currently installed safety shield from machine. If you have your original console box, please use that to package it back up. If you do not have the original box, please use the new console box to return the old console, cable and safety shield. Once packaged, place the UPS pre-paid label on the outside of the box and give to a UPS driver or drop off at any UPS retail store.

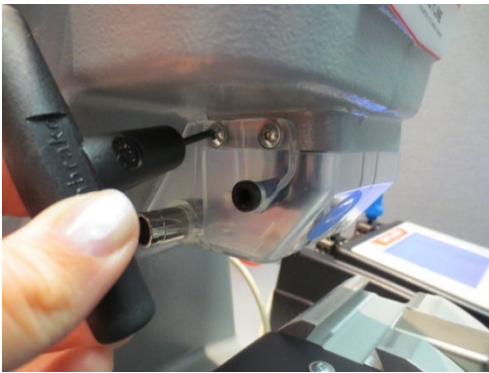

Please note: if the original console is not returned within 30 days, you will be billed the full amount for the new console, instead of the trade-in price.

IMPORTANT

SAFETY SHIELD

You must install the new safety shield on the key machine before using the new console. This shield is designed to accommodate the new universal tracer as well as the new G & H jaws.

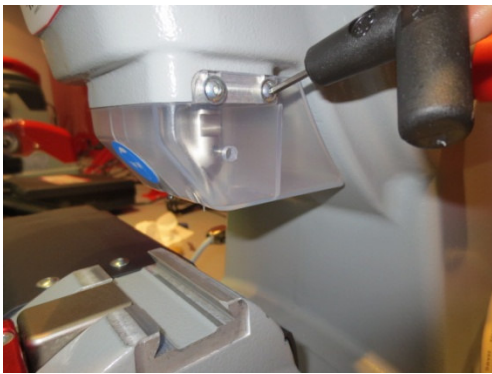

Please return your original safety shield when you return your original console.

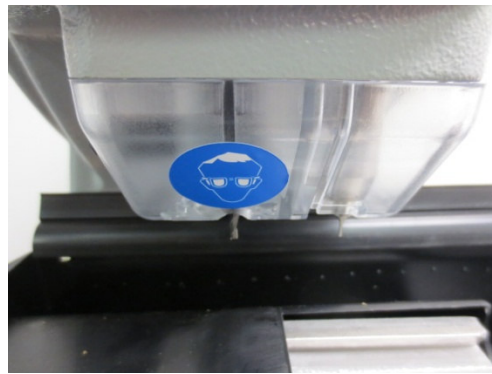

Loosen left side screws

INSTRUCTIONS:

- 1) Remove chip tray from 994 for easier shield removal.
- 2) Loosen screws on left and right side of the machine using 2.5mm short T-wrench.
- 3) Return shield with original console.
- 4) Install new safety shield.

Loosen right side screws

Install new safety shield & tighten screws
