

## Tire and Trim Dressing – Solvent Based - 1633818

Kent's Tire and Trim Dressing - Solvent Based utilizes a solvent and silicone system that provides reduced sling with a high level of durability. Tire and Trim Dressing - Solvent Based provides a long-lasting shine with very little set-up time. Dries fast and provides exceptional results.

### Directions and Dilutions

#### DIRECTIONS:

Do not use in direct sunlight or on hot surfaces. Contents may be under pressure, open containers slowly to remove any pressure. Do not smoke and turn off any source of ignition before use. Use only with adequate ventilation and freely circulating air. Do not use in confined spaces as explosive vapors may readily accumulate. Avoid breathing vapor or mist.

1. Clean and scrub tires prior use. Allow time for tire to dry completely.
  - a. Improper cleaning can lead to sling
2. Spray evenly over tire. Allow 15 to 20 minutes of dry time.
3. Wipe off any overspray or sling immediately to avoid spotting on plastic.

#### DILUTIONS:

Ready to use. Do not dilute.
