For Body Shops & Collision Centers

3 Ways to Buy Complete

Kent Complete 2 - Body Hardware/Electrical Set-Up

24 Assortments – 457 Items, 4,476 Pieces.

Set-Up Includes:

- Twenty Four Drawer Assortments
- Six Four-Drawer Heavy-Duty Roller Racks
- Two Roller Rack Stands with 8" Legs

KL2000

Kent Complete 2 - Body Hardware Set-Up

18 Assortments – 371 Items, 4,030 Pieces.

Set-Up Includes:

- Eighteen Drawer Assortments
- Two Additional Twenty Four Hole Drawers
- Five Four-Drawer Heavy-Duty Roller Racks
- Two Roller Rack Stand with 8" Legs

KL2001

Kent Complete 2 - Electrical Set-Up

6 Assortments – 86 Items, 446 Pieces.

Set-Up Includes:

- Six Drawer Assortments
- Two Additional Twenty Four Hole Drawers
- Two Four-Drawer Heavy-Duty Roller Racks
- One Roller Rack Stand with 8" Legs

6 Items, 60 Pieces
Item# 1635748

PROBLEM SOLVER

Using ordinary seam sealers can waste time and money.

PROBLEM:

- Standard sealers must dry for hours before they can be painted
- Solvent-based sealers can shrink, crack or blister when baked – wasting time and money on rework
- Ordinary sealers don't have the strength or durability for severe applications

SOLUTION:

Kent Flex-E and DTM Seam Sealers

- Cures in as little as 8 minutes, paintable in 30-60 minutes (dependent on viscosity) – delivering vehicles faster
- 100% solids, no VOCs – won't shrink, crack or blister when baked
- A formula to match any OEM sealer to hold up in high-wear areas

FEATURES:

- OEM approved
- Single applicator that combines two specialized formulas to shorten curing times, providing extreme durability and strength in high-wear applications
- Wide variety of viscosities available
- Neutral colors that cover easily

USAGE GUIDE:

- **Flex-E-6000:** non-sag, high-strength sealer perfect for most applications
- **Flex-E-6001:** self-leveling sealer for exposed and finished roof channel seams
- **Flex-E-6115:** medium viscosity, semi self-leveling sealer to duplicate factory door seams
- **Flex-E-6020:** high-strength, high-build, non-sag sealer for all types of vertical, horizontal, and overhead seams
- **DTM High Build:** fast-cure, high-strength, high-build sealer that can be applied direct to metal before priming

APPLICATIONS:

- Seams on doors, hoods, trunks, sunroof openings and deck lids
- Seams around tail lamps, pickup cabs, and filler panels
- Seams in high-wear areas like pickup beds and truck floors

Seam Sealers

Seam Sealer Big Bundle

Kit includes:

- 2 Flex-E-6000 – Non-Sag Seam Sealers (P10491)
- 2 Flex-E-6020 – High Build Seam Sealers (KT12400)
- 2 Flex-E-6115 – Controlled Flow Seam Sealers (KT12401)
- 1 DTM High Build Seam Sealer – Black (KT14999)
- 1 DTM High Build Seam Sealer – White (1588411)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(28 total turbo mixers in bundle)
- 12 Ribbon tips for 21 element square turbo mixer (1553181)

1595930

1595929

Seam Sealers

Seam Sealer Starter Kit

Kit includes:

- 2 Flex-E-6000 – Non-Sag Seam Sealers (P10491)
- 2 Flex-E-6020 – High Build Seam Sealers (KT12400)
- 2 Flex-E-6115 – Controlled Flow Seam Sealers (KT12401)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(24 total turbo mixers in kit)
- 12 Ribbon tips for 21 element square turbo mixer (1553181)

1595931

Sound Deadeners

Acoustical Starter Bundle

Kit includes:

- 2 Sound Deadener - 2 Part (KT13523)
- 2 Ure-Foam Expandable Foam - Acoustical (P10601)
- 2 Rigid-Foam Expandable Foam - Acoustical (P10612)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(24 total turbo mixers in kit)

1595932

Seam Sealers

Flex-E-6000 – Non-Sag Kit

Kit includes:

- 6 Flex-E-6000 (P10491)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(24 Total turbo mixers in kit)
- 12 Ribbon tips (1553181)

1595933

Seam Sealers

Flex-E-6020 – High Build Kit

Kit includes:

- 6 Flex-E-6020 (KT12400)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(24 Total turbo mixers in kit)
- 12 Ribbon tips (1553181)

1595934

Seam Sealers

Flex-E-6115 – Controlled Flow Kit

Kit includes:

- 6 Flex-E-6115 (KT12401)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(24 Total turbo mixers in kit)
- 12 Ribbon tips (1553181)

1595935

Seam Sealers

Kent Flex-E-6115 Kit with Manual Gun

Kit includes:

- 4 Flex-E-6115 controlled flow seam sealer (KT12401)
- 1 Dual cartridge manual gun (P33705)

1595939

Seam Sealers

DTM High Build Black Seam Sealer Kit

Kit includes:

- 6 Black DTM High Build Seam Sealer (KT14999)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(24 Total turbo mixers in kit)
- 12 Ribbon tips (1553181)

1595936

Seam Sealers

DTM High Build White Seam Sealer Kit

Kit includes:

- 6 White DTM High Build Seam Sealer (1588411)
- 1 Dual cartridge air gun (P32665)
- 12 Additional square turbo mixers (1579997)
(24 Total turbo mixers in kit)
- 12 Ribbon tips (1553181)

1595937

Adhesives

Panel Adhesive – 2:1 Kit

Kit includes:

- 6 Panel Adhesive - 2:1 (KT12638)
- 1 Dual cartridge air gun (KT13299)
- 12 Additional square turbo mixers (1579997) (24 Total turbo mixers in kit)
- 12 Ribbon tips (1553181)

1595938

PROBLEM SOLVER

Ordinary seam sealers may run on vertical surfaces and require applicator guns to apply.

PROBLEM:

- Seam sealers run down when applied to vertical surfaces
- Applicator gun needed to apply material
- Cracking, shrinking, or bubbling can occur when baked
- Solvent-based seam sealers cannot be painted immediately
- Product does not tool-in or adjust for a professional finish

SOLUTION:

Kent Quick Seal MSP

- Non-sag formula allows use on vertical and horizontal seams
- Excellent adhesion – sticks to plastic body panels, as well as primed, painted, and bare metal
- Five-minute skin time and paintable wet or dry within 30 minutes – paint within 72 hours
- Superior feathering for a professional finish – sealed areas blend into the body panels

Scan Code To See it in Action

FEATURES:

- 100% solids product has no VOCs or solvent fumes
- Will not crack, bubble, or shrink when baked provide flexibility and durability
- Smooth, butter-like consistency – easily tools to match OEM sealers
- OEM Approved – Ford Tox No. 156632
- All colors are OEM Recommended by GM, Honda Approval No. 18-134 and Acura Approval No. 18-070
- Handy Pressure Pak container with trigger lever allows easy application with no caulking gun or tools
- Ribbon tips are available as accessories to duplicate the look of factory tape-type sealers

APPLICATIONS:

- Automotive seams, including trunk floor, pickup bed, kick panel, wheel opening, filler panel, strut tower, and firewall

Adhesives

Quick Seal MSP with Nozzles Kit

An MS polymer-based seam sealer designed for all automotive surfaces and paint systems.

- Includes 3 cartridges of each color: beige, white, black and gray
- 12pcs each of the 1/2", 1", and 1-3/4" ribbon tips are included
- Easy-to-use pressurized dispenser with trigger lever – no caulking gun required

- Lengths: 4", 7-1/2" and 11-3/4"

3 Items, 600 Pieces

PROBLEM SOLVER

Damaged automotive plastic products are being replaced instead of repaired, increasing repair cycle time and landfill waste.

PROBLEM:

This Causes:

- Matching OEM color and texture is difficult, making it hard to achieve the desired results
- Replacement parts may take several days to be delivered, increasing cycle time to complete a job
- Damaged plastic parts and bumpers end up in landfills
- Lost profits from replacing parts instead of repairing them

SOLUTION:

4Plastic Repair System

- Repairs most non-painted bumper covers instead of replacing them by replicating automotive texture finishes
- Fixes plastic part in one day or less
- Superior fill and sand-ability without tearing
- Simple mix and apply process
- Low VOC and odor
- Keeps plastic parts and bumpers out of landfills
- Improves shop profitability

OEM Approved and OEM Recommended Products to Meet Your Standards

Look for these icons at kent-automotive.com

Kent Automotive® products that are OEM Approved are tested by an OEM manufacturer or laboratory and can be used for off-line repairs.

Kent Automotive® products that are OEM Recommended are tested and meet a quality standard required for repair.

PROBLEM SOLVER

Many customers experience the following when using ordinary body solvents and degreasers.

PROBLEM:

- Longer labor time is required to remove residue from other degreasers that can interfere with adhesion of primers and paints
- Long drying time hurts productivity
- Extra care is required to prevent damage to painted and plastic surfaces

SOLUTION:

Acrysol® Auto Body Degreaser

- 100% virgin solvent formula leaves no film or residue
- Dries fast to speed repairs
- Evaporates completely and has no lingering odor

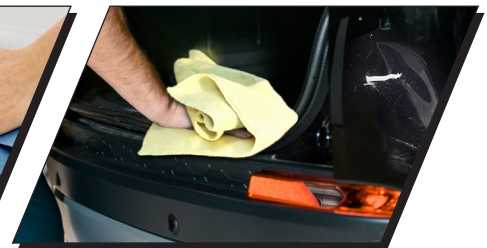

FEATURES:

- Won't harm most painted or plastic automotive surfaces
- Provides better adhesion of primers and paints
- Removes road film, tar and wax from body panels
- OEM approved and Recommended

APPLICATIONS:

- Detailing - degreases bare metal, plastic and painted surfaces
- Paint preparation - Use to remove contaminants such as tar, compound and waxes
- Removing grease and gum from carpets

PROBLEM SOLVER

Many customers have experienced the following with ordinary drill bits.

PROBLEM:

- Walking on curved surfaces
- Dulling, bending and breaking
- High-speed burnout from friction
- Chip buildup from soft material
- Drill bits spin in keyless chucks, destroying size identification

SOLUTION:

Regency® Drill Bits

- Modified split point starts holes faster and eliminates walking on curved and hard surfaces
- Tapered web design increases strength and reduces breakage
- Flats on shank prevent chuck spin - even in keyless chucks
- High-speed steel construction outperforms standard drill bits

FEATURES:

- Available in multiple diameters and lengths
- 135° modified split point increases productivity
- Nitride margins reduce friction

APPLICATIONS:

- Drilling on curved or rounded surfaces and auto body panels
- Industrial maintenance needs
- Heat Treated Steel, Carbon Steel, Stainless steel and many other materials

INDUSTRIES:

- Automotive – Service and Collision
- Truck & Trailer and Construction Equipment

Cutting Tools

Kent Regency Jobber Fractional Size Drill Bit Set

- Includes:
29 Pieces, 1/16" – 1/2" by 64ths (Pack of 1)
- 135° Modified Split Point
 - Gold Finish
 - Comes in a High-Impact Storage Case

1633790

2-N-1 Sheet Metal Drill Bit Bundle

Kit Includes:

- 6 Supertanium 2N1 Drill, 1/8" (P67286)
- 6 Supertanium 2N1 Drill, 3/16" (P67411)
- 6 Supertanium 2N1 Drill, 1/4" (P67476)
- 1 ETP Gold Cutting Fluid (P93210)

1639027

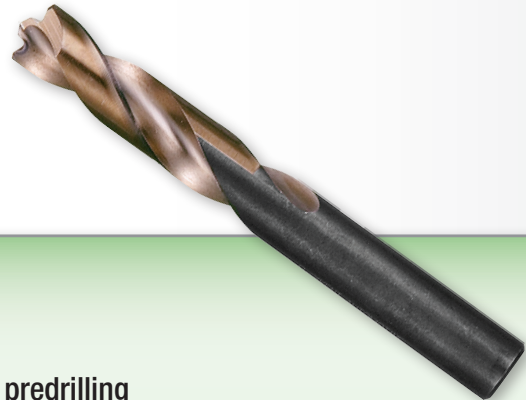

PROBLEM SOLVER

Ordinary hole saw spot weld cutters can waste time and money.

PROBLEM:

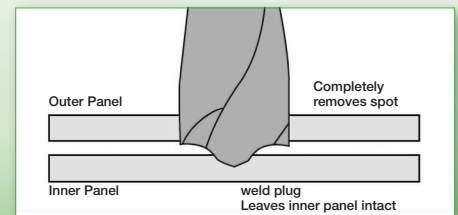

- Requires pre-drilling to prevent walking on irregular surfaces
- Cut around weld leaves a plug which needs to be ground off inner panel
- Easily wear, chip, and dull

SOLUTION:

Supertanium® Pro-Bit® Spot Weld Remover

- Special self-centering point eliminates walking and predrilling
- Completely removes the entire spot weld plug eliminating need for secondary grinding
- Removes hundreds of welds without dulling

BENEFITS:

- Saves time – increases productivity
- Saves money – reduces cost per hole
- Easily cuts standard automotive sheet metal and high strength steel
- Supertanium alloy provides longer life

APPLICATIONS:

- Removes spot welds anywhere on the vehicle
- Drills replacement panels for MIG welding
- Cuts off rivet heads for easy removal

Cutting Tools

Pro-Bit® Spot Weld Remover Drill Bit Bundle

Unique cutting tools designed and engineered to quickly and completely remove and separate spot weld joints.

3 Items, 11 Pieces

Contains:

- 5 - 8mm Pro-Bit® for HSS
- 5 - 8mm Pro-Bit® for Cobalt
- 1 - 8mm Pro-Bit® for Boron

PROBLEM SOLVER

Having the right TPMS repair parts on hand can be a challenge.

PROBLEM:

There are too many OE replacement kits needed to service all vehicles on the market.

- More money to be spent on a larger inventory.
- More time is spent on complicated technician training.

SOLUTION:

Kent's Universal TPMS Service Kits – A 2-part kit that works on 94% of vehicles.

- Reduces inventory and dead stock.
- Simplifies the product for faster training.
- Mitigates lost sales by always having the right kit available.

APPLICATIONS:

- For most metal valve stems, use the U1 Kit (1583638)
- For most rubber snap-in valves, use the U2 kit (1583639)

INDUSTRIES:

- Automotive

Brake, Wheel & Tire
