## Seam Sealer Kits

### DTM High Build Seam Sealer

A heavy-body two-part seam sealer designed for exterior and interior applications.

- Non-sag formula with extended working time (10 to 15 minutes)
- Excellent adhesion to many surfaces including bare metal
- Black or White color matches many OEM sealers
- Holds tool marks for desired finish
- Paintable in 60 minutes
- Remains flexible, will not shrink or crack
- Color: Black
- 10 Fl. Oz. Cartridge

### Flex-E-6000™ – Non-Sag

Fast-curing, two-component seam sealer that quickly and permanently seals seams. Outperforms typical one-part sealers and features a neutral color for easy coverage with any color paint. Recommended for door sills, door skins, trunk seams and hatch openings.

- Ten times stronger than ordinary one-part sealers
- 8 to 10 minute work life, paintable in 30 minutes – sandable in 20 minutes
- One-hour handling time – full cure in two hours
- Permanently flexible – no shrinking or cracking
- 10 Fl. Oz. Cartridge
- GM No. 9984532; Ford Tox No. 042633

\*For best results always follow OEM recommendations for priming procedure

### Flex-E-6020 – High Build

Fast curing, high viscosity non-sag two-component seam sealer that provides maximum build. Recommended for door sills, door skins, wheel arches, trunk seams, hatch openings, vertical and overhead seams.

- 20% greater viscosity than Flex-E-6000™
- 8 to 10 minute work life
- Paintable in 30 minutes – sandable in 20 minutes
- Maximum non-sag – ideal for maximum build
- 100% solids – no VOCs
- Color: Rose
- 10 Fl. Oz. Cartridge

\*For best results always follow OEM recommendations for priming procedure

### Quick Seal™

100% solids polyurethane seam sealer for painted or primed parts, steel, aluminum, galvanized metal and plastic. Eliminates cracking, peeling and shrinking. Can be used on automotive finishes or primer without adhesion promoter. Sealing seams on practically all automotive surfaces, including aluminum, steel and most plastics.

- Resealable screw-top cartridge accepts various applicators and nozzles
- Bakeable in bodyshop paint bake ovens up to 200°F (93°C)
- Paintable immediately or any time after curing
- 100% solids – will not shrink or crack
- No sagging on vertical surfaces
- Neutral color

## Cutting Tool Kit

### 3" Cut-Off Wheel Gravity Assortment

Aluminum oxide grain, fast-cutting abrasive

- High cutting rates reduce total cost
- Replacement Wheel Item No. P44123
- Grit: 46
- Wheel Thickness: 1/16"
- Size: 3" x 3/8" Arbor
- Comes in gravity feed dispenser
- 1 Item, 20 Pieces

## Rustproofer Kit

### Heavy Duty Rustproofer and Inner Panel Rustproofer Starter Kit

Contains:

- 3 – Kent® Heavy Duty Rustproofers (1584664)
- 3 – Kent® Inner Panel Rustproofers (P60305)
- 1 – Kent® Aerosol Extension Wand Kit (KT14725)
